

5 November 1981

MEMORANDUM FOR:

25X1

FROM:

SUBJECT: ICS Weekly Report (2-6 November 1981)

Completed:

A 3-day IR&DC/EXRAND-sponsored symposium was held at NPIC concerning all aspects of imagery collection, processing and exploitation. The DDCI was the keynote speaker. Over 300 personnel from throughout the Government attended. (C)

Ongoing:

The DDCI requested study by the IR&DC on the impact of emerging technologies on imagery processing and exploitation has been drafted and distributed throughout the Community for comment. The Council will meet 19 November to consider the report and then forward the study to the DDCI. (C)
